Robust
Construction

Upto 250 kw - Heavy Duty
Helical / Bevel Helical Gear Box

BTL EPC Ltd. has been powering India's progress through engineering excellence since over last six decades. In mining, we've built a legacy that runs deep — from the rugged stretches of open cast mines to the depths of underground operations.

Our expertise in **material handling and conveying systems** has transformed how India moves its resources — efficiently, safely, and sustainably. From **coal and iron** ore to bauxite and limestone, our solutions span design to commissioning, ensuring seamless material flow across the nation's mining ecosystem.

With landmark projects for **Coal India, NTPC, BHEL, SAIL**, and leading private players like **Adani Power**, BTL EPC stands as a name synonymous with trust, innovation, and performance.
